Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3764

The indicated allowability of claims 1-5 are is withdrawn in view of the newly discovered reference(s) to DeSousa, Ekstein and Cohen. Rejections based on the newly cited reference(s) follow.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over DeSousa in view of Ekstein.

DeSousa discloses a punching bag comprising a target attachable to a bag (24).

DeSousa however does not disclose his device wherein his target comprises a whistle and means by which said whistle sounds.

Ekstein teaches mounting a similar target on an object, wherein said similar target is capable of being mounted on a punching bag as disclosed by DeSousa.

Ekstein also discloses his device as including a whistle and a means by which said whistle sounds. See Ekstein col. 5 lines 50-54. In lines 50-54 a whistle is disclosed and a means by which said whistle sounds is the air inside said nose, the nose itself and any other parts which are included inconjunction with said said whistle. If a whistle blows then it must inherently have a means by which said whistle sound. I cannot whistle without a means by which.

Art Unit: 3764

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Cohen.

As broadly claimed Cohen discloses a device comprising a bag (12) a compressible target (36) indirectly attached to said bag, a whistle (37) and a pneumatic hose in the form of pipe (14) connecting said target to said whistle.

Claims 1-3 are allowed.
